## PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Margaret Gordon
DOCKET NO.: 05-25259.001-R-1
PARCEL NO.: 32-03-409-001-0000

The parties of record before the Property Tax Appeal Board are Margaret Gordon, the appellant, by attorney Rusty A. Payton and the Cook County Board of Review.

The subject property consists of a 39-year-old, one-story style single-family dwelling of frame construction containing 1,450 square feet of living area and located in Bloom Township, Cook County. Amenities include two full baths and a one-car garage.

The appellant, through counsel, presented evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of one-story style single-family dwellings of frame construction 50 or 54 years old. The comparable dwellings contain one or two full baths and one has a basement. The comparables range in size from 1,144 to 1,648 square feet of living area and have improvement assessments ranging from \$4.21 to \$4.82 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$10,347, or \$7.14 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject; one of which is located on the same street as the subject. The comparables

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds <u>no change</u> in the assessment of the property as established by the <u>Cook</u> County Board of Review is warranted. The correct assessed valuation of the property is:

consist of one-story style single-family dwellings of frame construction. The comparables contain one full bath and have garages; additionally one has air conditioning. These properties range from 34 to 37 years old; in size from 1,310 to 1,380 square feet of living area and have improvement assessments ranging from \$7.18 to \$7.55 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted seven properties as comparable to the subject. The Board places the most weight on the board of review's comparables as they are located in close proximity to the subject and are similar in age and amenities when compared to the subject. The Board places lesser weight on the appellant's comparables due to their disparities in age, size and location when compared to the subject. After considering adjustments and the differences of the parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted. Member
